

SOFTTEK INDUSTRIAL IOT WITH GE DIGITAL

Developing Digital Industrial business outcomes that matter.

The amount of industrial data generated is growing twice as quickly as any other sector. Yet today, less than 3% of that data is tagged and used in a meaningful fashion. In order to remain competitive, every industrial company will need to extract insight from operational data and turn it into actionable outcomes.

That's why Softtek partnered with GE Digital-- to enable digital industrial business outcomes that matter. Together, using GE's digital industrial software solutions and Softtek's value added services we bring together brilliant machines, advanced analytics, and people to drive real-time connectivity and data intelligence through a digital thread.

Softtek is a **GE Digital Global Strategic Partner**. We enable customers to transform their industrial processes and systems into digital assets that connect across the globe, generating unparalleled business impact.

SOFTTEK COVERS THESE GE DIGITAL SOLUTIONS

**ASSET

**Cyber Security
Solutions**

SOLID GLOBAL RELATIONSHIP WITH GE

Softtek has a **proven 20-year track record** helping GE improve time-to-market business solutions, lower the costs of existing applications, and deliver greater cost efficiencies through IT services.

1,800+	Softtek resources supporting GE globally
120+	Ongoing engagements providing global support
20-yr	Partnership supporting GE

DELIVERING BUSINESS VALUE THROUGH TECHNOLOGY

We've supported GE on **520+ projects** covering more than **350,000 GE users**

Global Strategy Partner

INDUSTRIAL IOT: PREDIX CASE STUDY

Softtek developed and supported **GE Water & Process InSight** solutions in **Predix Digital Solutions**.

THE CHALLENGE

- GE Water needed to have the ability to monitor near real-time GE Water assets such as: cooling towers, boilers, water tanks, etc.
- Be able to capture any product and water service into Insight.
- Track more than 40,000 assets.
- Insight into 4,000 customer sites.

THE SOLUTION

- Integrated with SAP to automate the collection of tank inventories.
- Flexible self-serve design allows users to integrate more sites and load assets.

THE BENEFITS

- Report the data to Stakeholders in an elegant, easy and comprehensible way.
- Substantially reduced the original planned project cost due to Softtek's experience and efficiency with development.
- GE incorporated improvements to its own Agile implementation.

Softtek developed and supported **GE Water & Process FIRE RHO** Application in **Predix Digital Solutions**.

THE CHALLENGE

- GE Water Field Engineers needed a way to run simulations for the GE water products
- Running simulations required heavy processing of a great amount of data
- Time to market was very tight due to market constraints
- They needed a mobile friendly tool for calculations in the field

THE SOLUTION

- Softtek developed a complete new application called Fire Rho using the existing Rho Database.
- Application was developed using Predix, which improved dramatically the timeline for development .
- The application is Integrated with GE Proficy Historian
- Processes Terabytes of data

THE BENEFITS

- Increased business competitiveness and control on calculation process.
- GE Field Analysts were able to run simulations and make better decisions based on different scenarios
- The application enables Field Engineers to easily run the simulations in the field on their mobile device and show the results to the GE customers

ABOUT SOFTEK

Founded in 1982, Softtek is a global provider of process-driven IT solutions with 30 offices in North America, Latin America, Europe and Asia. With 15 Global Delivery Centers in the U.S., Mexico, China, Brazil, Argentina, Costa Rica, Spain, Hungary and India, Softtek helps improve time-to-business-solution, lower costs of existing applications, deliver better engineered and tested applications, and produce predictable outcomes for top-tier corporations in over 20 countries. Through on-site, on-shore and its trademarked Global Nearshore™ service delivery models, Softtek teams with CIOs to constantly increase the business value of IT. Softtek is the creator and a leader of the nearshore industry.
