

CLOUD SERVICES

Enterprise Cloud Thinking. Infinite Scale.

Softtek is a strategic cloud partner with the end-to-end transformation experience and platform partnerships to help companies accelerate digital transformation through the selection, design, migration, orchestration, and expense management of cloud computing and storage resources across public, private, and hybrid models. Through the cloud, we build, operate and optimize intelligent digital platforms and products that power global industries.

Developing a Cloud-Powered Enterprise is a journey.

Softtek helps organizations traverse unknown terrain by developing flexible multi-cloud operation models that can increase IT infrastructure availability and scalability while optimizing the total cost of ownership through the selection, design, migration, orchestration and expense management of computing and storage resources provisioned in public, private, and hybrid clouds.

“When traditional channels and operations are impacted, the value of digital channels, products and operations becomes immediately obvious”

Jaime Palacios

SVP, Digital & Innovation Softtek

Agile Cloud Migration

Accelerate your cloud-powered organization with an agile migration strategy.

Digital Architecture & Platform Advisory

We help organizations realize their full cloud potential and navigate the processes associated with evolving digital platforms.

Cloud Architecture and Cloud Adoption

Develop a cloud-first architecture and strategy for your organization while charting an accelerated path towards successful cloud adoption.

Cloud Orchestration

Develop a stable and secure environment for accelerated delivery and design a cohesive management approach.

Cloud Expense Management

Gain visibility and understand the current expenses of running your cloud operations.

Infrastructure as Code

Shift from old paradigms to infrastructure as code. Enable automation, continuous deployment and advance Site Reliability Engineering strategies.

Platform Services

Through our enterprise technology partnerships, we combine the power of leading cloud providers, along with our agile transformation services to drive scalable cloud transformation with measurable results.

Founded in 1982 by a small group of entrepreneurs, Softtek started out in Mexico providing local IT services, and today is a global leader in next-generation digital solutions. The first company to introduce the Nearshore model, Softtek helps Global 2000 organizations build their digital capabilities constantly and seamlessly, from ideation and development to execution and evolution. Its entrepreneurial drive spans 20+ countries and more than 15,000 talented professionals.
