PORTFOLIO TRANSFORMATION

Develop, integrate and modernize the entire technology portfolio.

From enterprise application modernization, cloud migration, agile software development or cognitive testing; our Portfolio Transformation capabilities help organizations have the technology portfolio needed to successfully connect data, systems, people and things.

THE SOFTWARE PORTFOLIO NEEDED FOR A SUSTAINABLE COMPETITIVE ADVANTAGE

Our heritage stems from Software Engineering. We bring a quality approach that enhances the performance of our clients' business through an ever-evolving application portfolio. From enterprise software, to application modernization, to agile application development.

- Achieve the value promise of SAP technology
- Unlock the potential of Salesforce
- Master digital transformation through APIs and Microservices
- Modernize legacy applications
- Accelerate growth through Enterprise Agile Development
- Improve quality through cognitive testing
- Bring business, operations and applications together through DevOps

> "Lean, Secure and effective... that is only possible when you have a partner like Softtek. Who are an integral part of our culture, understands your values and core business mandate"

Managing Director
Head of Technology – Global Financial Services Conglomerate

Value through technology portfolio transformation

A powerful combination of technology expertise, tools, methodologies and service delivery capabilities provides the depth and breadth needed for successful digital initiatives.

SAP Services
From implementation to maintenance, Softtek has a comprehensive and long-standing SAP practice.

Salesforce Services
We help organizations design, develop and implement business solutions on top of Salesforce suite of solutions.

APIs and Microservices
A modern enterprise relies on a robust applications platform, and increasingly on an infrastructure of APIs.

Application Modernization
Convert, rewrite or port legacy applications into modern cloud-based and mobile-ready environments.

Agile Development
Softtek helps businesses achieve value from Agile, regardless of their level of technology, process and cultural maturity.

Quality Assurance
We provide a comprehensive software Quality Assurance and Testing practice that identifies the completeness, and quality level.

DevOps
Softtek delivers consulting, coaching, implementation and managed DevOps services.

Founded in 1982 by a small group of entrepreneurs, Softtek started out in Mexico providing local IT services, and today is a global leader in next-generation digital solutions. The first company to introduce the Nearshore model, Softtek helps Global 2000 organizations build their digital capabilities constantly and seamlessly, from ideation and development to execution and evolution. Its entrepreneurial drive spans 20+ countries and more than 15,000 talented professionals.
