

# SOFTTEK SAP SERVICES

**The Sustainability of an Enterprise Relies on its Ability to Adapt to New Market Trends and Emerging Digital Technologies.**

Softtek's SAP practice helps enterprises maximize their ERP investments for the digital economy. By implementing or optimizing SAP platforms to reduce costs, elegantly integrate with customer-facing systems and drive digital acceleration, we prepare you for the future.

## Proven Track Record of Digital Transformation through Intelligent SAP Services

Complex business requirements coupled with uncertain and fluctuating market environments pose challenges that can hinder a company's productivity and negatively impact customer satisfaction.

Although SAP has extended support for Business Suite 7 until 2030, SAP platform modernization, extension or replacement may still be part of your solution. Platform modernization is a critical initiative regardless of your platform's version, provenance or condition. Softtek's unique modernization approach will find the right solution for your unique needs.

Founded in 1982 by a small group of entrepreneurs, Softtek started out in Mexico providing local IT services, and today is a global leader in next-generation digital solutions. The first company to introduce the Nearshore model, Softtek helps Global 2000 organizations build their digital capabilities constantly and seamlessly, from ideation and development to execution and evolution. Its entrepreneurial drive spans 20+ countries and more than 15,000 talented professionals.
