SERVICE TRANSFORMATION

Optimize business performance through data-driven technology operations

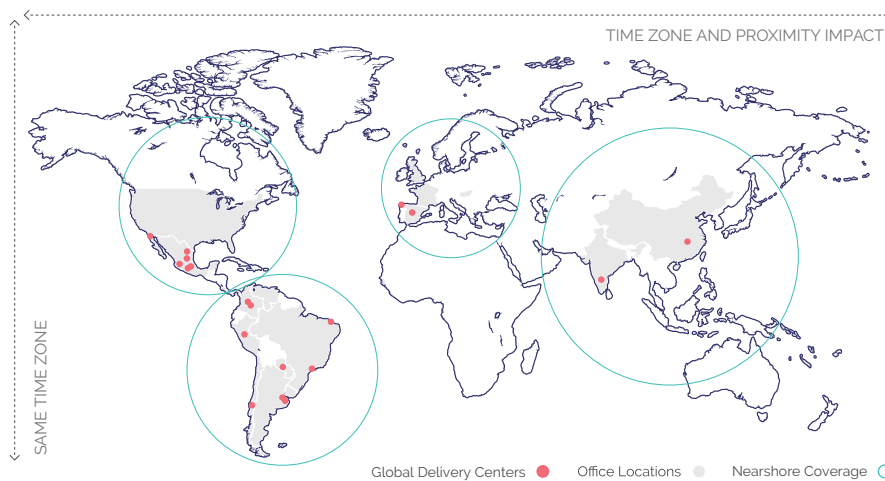

- DevOps
- Site reliability engineering
- Application management
- Cloud management
- End-user support

LEADING GLOBAL NEARSHORE

nearshore

Global delivery network

We address the requirements of agile teams by providing compatible cultural alignment, real-time collaboration, functional timezone alignment, highly productive agile teams, and sourcing risk diversification.

Founded in 1982 by a small group of entrepreneurs, Softtek started out in Mexico providing local IT services, and today is a global leader in next-generation digital solutions. The first company to introduce the Nearshore model, Softtek helps Global 2000 organizations build their digital capabilities constantly and seamlessly, from ideation and development to execution and evolution. Its entrepreneurial drive spans 20+ countries and more than 15,000 talented professionals.
