

BLUE YONDER ONE NETWORK: SEE MORE. ACT FASTER

You deserve a Blue Yonder One Network journey that's **Simple, Smart, Reliable.**

PAIN POINTS BY PROCESS

Lack of end-to-end visibility leads to silos and delayed responses across the supply chain

Disconnected logistics and poor ETA accuracy disrupt inbound coordination and dock planning

Overstock, stockouts, and demand mismatches increase costs and reduce service reliability

Slow disruption response and legacy tech limits hinder agility and resilience

WITH SOFTTEK + BLUE YONDER

Single orchestration layer enables real-time, multi-tier visibility and early disruption detection

Intelligent transportation collaboration improves routing, ETAs, carrier performance, and warehouse readiness

Shared inventory visibility and dynamic rebalancing lower working capital needs and improve fulfillment accuracy

AI-driven exception management and scenario modeling improve speed, scalability, and continuity across the network

25+ YEARS OF PARTNERSHIP WITH BLUE YONDER

Driving results through deep product knowledge and global execution across:

- Consulting & roadmap
- Implementation, migration, integration
- Solution management & support
- Hosting & licensing
- Education

One Network overview

Enable end-to-end visibility, real-time collaboration, AI-powered insights, and seamless connectivity across suppliers, partners, and logistics providers.

SOLUTION DETAILS

Multi-Enterprise Supply Chain Visibility: Gain real-time, end-to-end visibility of orders, inventory, and shipments across all trading partners—enabling faster, more informed decisions.

Intelligent Collaboration & Orchestration: Automate planning, execution, and resolution through AI-powered workflows that drive proactive collaboration across the entire ecosystem.

Integrated Order & Inventory Management: Unify order and inventory control across the network to boost fulfillment agility and optimize availability across nodes.

Transportation & Logistics Synchronization: Improve on-time delivery with real-time transportation tracking, predictive ETAs, and coordinated execution with carriers and 3PLs.

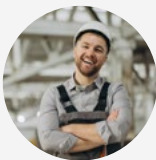

MOVING THE NEEDLES THAT MATTER

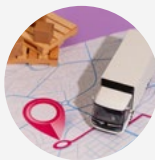

Reduce lead times by up to 30%

Cut supply chain disruptions by up to 50%

Improve service levels by 5-15%

Achieve 100% network visibility across partners, locations, and flows

RECENT NEWS

A major shift in supply chain orchestration

Acquired by Blue Yonder in 2024, One Network is now powering the next generation of multi-enterprise supply chains. With GenAI assistants, real-time control towers, and full partner visibility, it's transforming how global operations sense, adapt, and respond.
