

BLUE YONDER WMS: SMART WAREHOUSING, RELIABLE RESULTS

You deserve a Blue Yonder WMS journey that's **Simple, Smart, Reliable.**

PAIN POINTS BY PROCESS

Dock congestion and yard delays limit inbound visibility and slow operations

Manual workflows and poor visibility reduce warehouse efficiency and traceability

Limited task visibility and frequent picking errors impact performance

Manual task assignments and execution gaps create bottlenecks

WITH SOFTTEK + BLUE YONDER

Optimized dock-to-stock flow improves receiving, cross-docking, and real-time inventory visibility

Configurable workflows and real-time tracking boost fulfillment speed and reduce shrinkage

Dynamic task management drives accurate, efficient picking across batch, wave, and zone models

Automated task execution and smarter labor allocation enhance throughput and control

25+ YEARS OF PARTNERSHIP WITH BLUE YONDER

Driving results through deep product knowledge and global execution across:

- Consulting & roadmap
- Implementation, migration, integration
- Solution management & support
- Hosting & licensing
- Education

WMS overview

Combining cloud-based control, real-time visibility, and embedded intelligence for streamlined warehouse operations at every level.

SOLUTION DETAILS

Inventory Management: Enables real-time inventory tracking across the warehouse for precise stock control, full traceability, and efficient cycle counting.

Receiving & Putaway: Supports multiple picking methods (wave, zone, batch) and efficient packing workflows for fast, accurate, and flexible order fulfillment.

Order Fulfillment (Picking & Packing): Streamlines inbound operations with advanced receiving, inspection, and dynamic putaway strategies—maximizing space and minimizing delays.

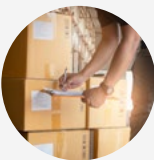

Shipping & Loading: Optimizes outbound logistics through load planning, dock scheduling, and carrier integration—ensuring smooth, on-time deliveries.

MOVING THE NEEDLES THAT MATTER

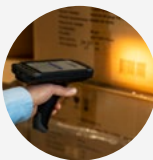

Achieve inventory accuracy up to 99.9%

Ensure shipping accuracy over 99%

Boost labor productivity by 20-40%

Improve order picking accuracy up to 99.8%

RECENT PROJECTS

Global automotive company
(Brazil operations)

Managing and controlling inventory for millions of SKUs across distribution centers with Blue Yonder WMS.

Founded in 1982 by a small group of entrepreneurs, Softtek started out in Mexico providing local IT services, and today is a global leader in next-generation digital solutions. The first company to introduce the Nearshore model, Softtek helps Global 2000 organizations build their digital capabilities constantly and seamlessly, from ideation and development to execution and evolution. Its entrepreneurial drive spans 20+ countries and more than 15,000 talented professionals.
